# GENERAL SALE INFORMATION

**LOCATION** — The Portage La Prairie Island Park Fairgrounds, with the sale being held in the Display Building on the Fairgrounds. The Island Park is located on the south side of Portage La Prairie. Portage La Prairie is located on Highway Number One west of Winnipeg.

**TIME** — The cattle will be sold promptly at 10:00 a.m., Saturday, October 18, 1975.

**SALE HEADQUARTERS** — The Gordon Motor Inn has been designated as sale headquarters. We also recommend the following accommodations in Portage La Prairie.

Gordon Motor Inn — 402-857-6881

Westgate Motel — 402-857-3626

Mayfair Hotel — 402-857-7807

Albion Hotel — 402-857-7846

**HEALTH** — The cattle will be sold in compliance with the Health Regulations of the Dominion of Canada and this will make the animals eligible for entry into the various provinces and to cross the U.S. border. Since several states have special requirements, all buyers should be aware of their own health regulations, any special requirements, etc., as all sales are final. The cattle will be ready for shipment on Tuesday following the sale.

**TERMS** — The terms of the sale are cash unless other arrangements are made in advance with the sale manager. Checks are to be handed to the cashier of the sale immediately at the conclusion of the auction. All stock will be at the buyer's risk as soon as bid off.

**INSURANCE** — Insurance will be available at the sale from the sale manager or from the cashier on settlement of the sale.

**LUNCH** — Will be available at the sale.

**GUARANTEE** — The cattle will sell under the standard guarantee endorsed by the American and Canadian Shorthorn Associations.

**LIABILITY** — Although every precaution will be exercised to protect the safety of those attending, all who attend this cattle sale do so at their own risk. The Ernie Esau Family, Mr. and Mrs. Elgin E. Stewart, their representatives, the auctioneer, the sale manager, the ringmen, nor the clerk and cashier assume any liability. The sale manager was retained for specific tasks, promotional and clerical, and has nothing to do with the condition of the premises, the handling of the cattle, fulfillment of guarantees, etc.; and he cannot be responsible for possible errors in footnotes and health charts.

**RECORDING IN U.S. HERD BOOK** — All cattle will be transferred to the new owner in the Canadian Herd Book and it will be the responsibility of the U.S. buyers to pay the additional fees required to transfer from the Canadian to American Herd Book. Those that are not acceptable will be announced on sale day.

**SOCIAL HOUR** — To be held Friday evening, October 17, at the Gordon Motor Inn.

**TRANSPORTATION** — Air and train transportation is available to Winnipeg. Rental cars are available in Winnipeg for transporting to Portage La Prairie

## *From The Sale Manager*

Dear Breeders:

It is with deep regret that this splendid herd of Shorthorns and Polled Shorthorns must sell. Because of health and labor problems, Ernie Esau and his family have decided the herd must be dispersed.

Since I first had the privilege of seeing the strong Ernmores herd, I have admired these cattle and felt they were the top producing herd in North America. When an operation is headed by a herd sire with the likes of Canadian Image, you may be certain that the Esaus know what the purebred and commercial men are striving for in modern, efficient, practical, and performance proven cattle.

Ernie Esau started raising purebred Shorthorn cattle in 1952. Since that time, he has believed in big, growthy cattle that will still reproduce superior seedstock. In the early part of this decade, Ernie became a strong supporter of Dual Purpose Shorthorns and Polled Shorthorns; and he firmly believes this is the only way to meet the demand and the thrust against the Exotics.

Ernie has won many awards with his cattle and his personal leadership including the honor of "Builder of the Breed" by The Shorthorn World. He has had top-selling animals at the Canadian International Bull Sale, the Tri-West Sale, and the National Western Sale in Denver. In only three years of participation in the pens show at the National Western, he has had the highest selling pens along with Grand Champion Pens in 1973 and 1974.

Don't rely entirely on my judgment — come and see for yourselves. Plan to be with us on October 18, and I guarantee you will not be disappointed.

If I can be of any assistance, please don't hesitate to get in touch with me.

STUART WILSON

Sale Manager

# Comments From Ernie Esau

**The Ernie Esau Family**

Dear Friends:

It is with a great deal of mixed feeling that I am having this dispersal; but due to health reasons, I have decided that this is the best at this time. I started in Shorthorns in 1952 with two heifers. After I got married in 1955, I bought ten cows and heifers from the then-famous T. J. Stows herd, Graysville, Manitoba, and a bull from Searle Farms.

As you know the type change to smaller cattle was on, and we bought some of these bulls and found them very unprofitable from the commercial view-

point. We decided to switch to more practical cattle. I was even going to switch breeds because of this, but Mr. Sid Coulthard persuaded me to go to the Brandon Research Station first and look those Shorthorns over. They had been selected for size only.

We saw the Brandon Captain 116V bull and were very impressed. Who wouldn't be? He weighed 1,116 pounds at 365 days and had elevation and thickness. We purchased "Captain Big" and he put us back in business—what we call "money cattle" possessing red meat and size. This Captain 116V bull left some great breeding females for us and others such as Melbourne Farm, Big Rock, Illinois.

Then we went looking for a Polled Shorthorn bull. Naturally, we were "size-crazy," as people called us. I had always admired the size of Harvey Fulton's cattle, so I had him select what he thought was the best bull and he sold me Kenmar Samson 8Y x, who is out of the same dam as "Maxi Brute," owned by Don and Pat Stout, Kremlin, Oklahoma. He came later, so it turned out we were on the right road after all.

Always on the lookout to improve our cattle, I decided to go to Polled Dual Purpose. I remembered Polled Shorthorn cows that dehorned everything for generations. The Dual cattle would be genetically clean for size, and I thought most of the beef cattle had too much Scotch blood in them to be genetically clean for size.

We bought a number of herds of Dual Purpose and sold some, but we tried to keep the top ones for ourselves. This proved to be successful as we won the Champion Pen of Five Bulls in Denver in 1973 with Dual Purpose bulls; and according to all information from commercial men, these were the best Shorthorn bulls they had seen for years. Since the Dual Purpose cattle had not yet been recognized in the A. S. A. herd book, we had to sell these bulls as non-purebreds. We still outsold pedigreed bulls with a price margin of three to one to commercial ranchers, so they must have liked them. This went on year after year. We had the Champion Pen of Five again in 1974. They were part Dual Purpose with a "Captain Big" cross.

Also in 1974 at the International Bull Sale, we sold a bull to Darrel Steck and Sons, Wataga, Illinois at \$3,575. He is known as "Ermmore Giant," and he went on to be an All-American. Then in 1975 we again outsold the champion at the International Bull Sale with a part Dual bull.

In the meantime, we had found what I believe is the greatest Shorthorn bull for his time—CANADIAN IMAGE! This bull has already made a tremendous impact on the breed and will continue to do so.

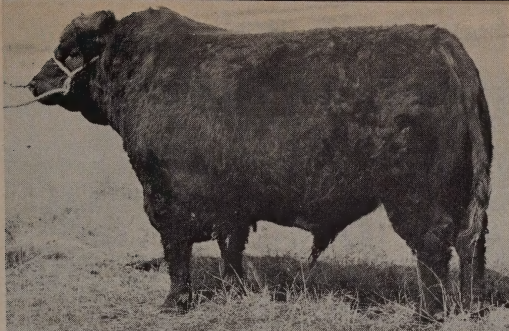

My philosophy for raising Shorthorn cattle has always been that they have to fill the needs of the commercial man. We can trade among ourselves, and I have seen this in the Shorthorns in the past, and it nearly ruined this great breed. I must say that the Shorthorn cattle are the greatest breed on earth. No other breed of cattle has had as many type changes and adapted to as many conditions and survived as the Shorthorns have.

In closing, I would like to thank my dear wife, Irma, who has made possible any success we may have had. She and the children have worked without complaining and kept things going when I was sick or on the road putting together this great herd.

I hope you find what you want at the sale, and I hope it will be as profitable and enjoyable for you as it has been for us.

Yours truly,  
Ernie Esau

Brandon Captain 116V, "Captain Big", was the bull that started it all for Ernmoo Farms. Years of performance proven cattle are found in his pedigree. Cattle carrying the Brandon Research bloodlines can be bought with confidence on October 18.

## REFERENCE SIRE A

### BRANDON CAPTAIN 116V -414761-

**Reference Sire A — BRANDON CAPTAIN 116V** — When we decided to change to a new type of Shorthorn in 1964 which we called profitable cattle with growth and red meat, we selected Captain 116V at the Brandon Research Station. He weighed 1,116 pounds at 365 days. He was turned out with cows at fifteen months and left with cows all year around. He grew to be a 2,400 pound bull! His daughters are great breeders as people who have purchased them from us have found out. "Captain Big", as he was nicknamed, sired good gaining calves at the Research and Douglas test stations. His calves were always at the top of the test. His semen was sold commercially in the United States, and one rancher alone used 800 vials in one year with very good results. Captain 116V was an easy calver with great weaning and yearling weights. There is a limited amount of semen on this bull which will be available until sale day.

## REFERENCE SIRE B

### INDIAN HEAD CAPTAIN 25S -397286-

**Reference Sire B — INDIAN HEAD CAPTAIN 25S** — He was nicknamed "Goliath" because of his great size, and he has the same breeding as "Captain Big". This is the last of the old Monarch bloodline which came from Claude Gallinger. These Monarch cattle are big, modern and smooth. "Goliath" weighed 2,475 pounds at ten years of age when we found and purchased him with Dr. Martin Nold, Gettysburg, South Dakota. He was a tall, long, heavy-quartered bull with exceptionally good feet and legs. Not many bulls of any breed have a heel on their feet like he did. His only son in the sale, Lot 3, is the same way. You will see his first calves as yearlings at this sale. They are bound to be good breeders in the future.

Kenmar Samson 8Y x, a half-brother to the famed Kenmar Ransom 32Z, "Tank". Samson 8Y x has been called by many the best breeding son of Pleasant Dawn Seal 2nd x.

## REFERENCE SIRE C

### KENMAR SAMSON 8Y x-422736-

Kenmar Mayflower 6T  
Red, H. Fulton

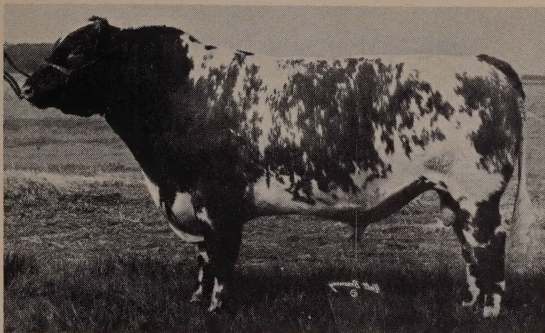

**Reference Sire C — KENMAR SAMSON 8Y x** — He was our first Polled bull. We wanted a Polled bull, but size and confirmation came first. We selected this son of Seal 2nd x because of the size in his ancestors. Ironically, later in years, Harvey Fulton's breeding and our "Captain Big" bull's progeny hold the all-time price record at the Douglas test station. Samson 8Y x bred very well and we have some real outstanding daughters in the herd. They were in great demand, but we managed to keep some of them. His progeny has gone to such famous herds as Packard Cattle Co., Elbert, Colorado; Hart Farms, Waxahachie, Texas; and Tutira Farms, Arundel, Quebec.

**FREE! FREE! FREE! FREE! FREE! FREE!**

At the conclusion of the sale, Semen from Hillview Hobo will be given away FREE to a lucky buyer.

Cattle will be grouped after the sale to be delivered to central points in Canada and the United States.

Canadian Image is a tremendous breeding bull that has been called the Salvation of the Shorthorn Breed. You can buy this great sire on October 18, along with his valuable get and service. Plan to be on the seats October 18. No where will a better bull sell this year or for years to come.

**LOT 1**

**CANADIAN IMAGE** — We, the same as all Shorthorn breeders, were always on the lookout for an outstanding herd bull. When we first saw Image at a year of age, he was Junior Champion at Toronto. We were astounded at his muscling, great thickness, and length. We thought, like a lot of Shorthorn people do, that thick bulls don't grow big; so we left him. However, we didn't forget about him. We saw him again six months later, and he had grown much more than we had anticipated; so we purchased him immediately. We knew he was great and people who saw him marveled at his length, size, and above all, his tremendous muscling. The proof of a great breeding bull is his progeny, and here Image performed even better than we could ever have dreamed. Look at his record. The first year he sired four calves and three were shown. They were Ernmere Tyrone Image, Tyrone Ada's Girl 4th, and Tyrone Katia's Image. What bull in the history of the Shorthorn breed has started off with a better progeny record? The public has also put their stamp of approval on his calves. Tyrone Katia's Image sold for \$3,000 at the National Western Sale in Denver to Mike Harvey, Findley, North Dakota; and a seven month old heifer calf topped the Virden Sale at \$1,500 to Berg's Shorthorns, Osage, Iowa. We can go on and on about his great breeding ability. Another good son of Image is in the famous Thieman herd in Missouri. His second year calves have just started on the show circuits and have already won numerous championships. Image weighed over 2,300 pounds last year and is still growing. That's plenty big for us! As we said, with his elevation, muscle, great length, and size, he can compete very favorably or be ahead of any beef bull of any breed. Due to an unfortunate accident last summer when Image got hurt, we ran low on semen as the demand was just tremendous. He is now 100% sound and his semen is excellent. Because the decision was made in June to disperse the herd and offer Image to the public, we thought it would only be fair to the future buyer or buyers not to flood the market at this date. We are enclosing a notation from Dr. Robson who handled the bull about his soundness. This could be your last opportunity to buy Image calves for herd sires and replacement females bred to him.

## **FROM THE VET**

Dear Mr. Esau:

This is an answer to your request for a health and semen report on your herd sire, Canadian Image 433923 Tattoo AIC 4B.

You brought "Image" to me this spring as a poor semen producer. Unsuitable for freezing. On examination we found him anemic as a result of lice. He was treated for lice and given medication for the anemia. His semen was collected regularly and by the end of May was suitable for processing with 70-80% living and with very few sperm showing abnormalities. He can be collected by the artificial vagina or electrically as circumstances dictate.

He is in excellent health and I'd recommend him as sound and suitable for producing frozen semen of good quality.

Yours truly,  
Keith Robson, D.V.M.

**LOT 2****Bull****JIBBSKOT ROAN HOPE 2nd x**

Jibbskot Celeste x  
Red, Little White, H. Jibb

**JIBBSKOT ROAN HOPE 2nd x** — This is a bull we selected to bring in the Polled factor. He is a very long and tall bull out of the Hope Diamond x cow that has a tremendously well-attached udder and excellent small teats. Hope 2nd x, known as "Stretch x", was a member of the Champion Pen of Five Bulls in Denver in 1973 that started it all. He sired the top bull at the International Bull Sale in 1975. He is a 100% dehorner. We would like to reserve the right to draw semen on this bull in the future if our children should ever decide to become Shorthorn breeders. If anyone is looking for a good, modern breeding bull, he will be found here on October 18. You can buy him with confidence as his dam is a top producer every year.

**Ernmore Barrington** — an outstanding two-year-old herd bull prospect. He is an extremely heavy-muscled bull with a performance proven pedigree. Out of one of the best cows in the sale, Barrington Rosette Ruby, he sells as Lot 3.

**LOT 3****Bull****ERNMORE BARRINGTON**

Tattoo WZZ 41E rt ear

[Clydagh Macduff  
Roan, Mrs. V. Lynch-Staunton  
Rosarian's Rosette Wild Ruby  
Red, White Markings, F. O. Bellamy

**ERNMORE BARRINGTON** — We think this is a top herd bull prospect. He has a great depth of loin and quarter and tremendous feet and legs, which have never been trimmed. "Goliath's" sire, as his footnote states, was genetically sound; and his dam just has to be one of the best cows in any breed. You will see his dam here; and if there is a better breeding Shorthorn cow, we want to see him. This bull is bred right and will breed right! With the old Monarch breeding in him and the Bellamy Rosette cow on his dam's side, he is not only an outcross to all Shorthorn cattle in America, but probably your last opportunity to ever get this Monarch bloodline.

# THE BELLAMY COWS

We've traveled thousands of miles and have seen a lot of cattle, but these Bellamy cows are the biggest and beefiest Shorthorn cows we've found yet. Unfortunately they are getting up in years, but it's cows like these that built the Shorthorns in the past. I think these are the old Durham kind; massive, but still beefy. We really hate to sell these cows, as we had our future based on them. There are some great cows with their tremendous daughters. We'll guarantee you won't be disappointed in them. They are definitely worth looking over on sale day.

**Barrington Rosette Ruby** is typical of the great cows that sell. There are probably no better producing females than the Bellamy cows. Great females like these sell only in a dispersion. She sells as Lot 4.

**LOT 4**

**Female**

## **BARRINGTON ROSETTE RUBY -567659-**

**ERNMORE CAMILLE** — She's out of the same dam as the All-American and 1974 International Reserve Grand Champion Bull, "Ernmore Giant", owned by Darrel Steck, Wataga, Illinois. Her dam was an 1800 pound cow. This is an exceptionally good heifer which will be a great asset to any herd. Bred to Jibbskot Roan Hope 2nd x on May 12, and should have a Polled calf.

Barrington Lad 2nd, "Ernmore Giant", the All-American two-year-old bull and the 1974 International Reserve Grand Champion bull. His maternal sister sells as Lot 10.

Red, White Marks, F. O. Bellamy

**BARRINGTON ROSETTE WILD RUBY** — Here is a full-sister to Rosette Ruby. These cows are tremendous breeders. She weaned an outstanding calf this summer, and is rebred to the great Canadian Image.

# THE JIBBSKOT COWS

When we went looking for Dual Purpose Polled Shorthorn cows, we found this outstanding herd. These cows have more muscle than ordinary milkers with tremendous udders and teat placement. With udders and teats like these, we don't have to be afraid of too much milk in the beef business. Along with the polled factor, many of these cows are 100% de-horners. We felt we found the right combination with the size, the polled characteristics, and the udder placement. Our Champion Pen of Five Bulls at the National Western in Denver were out of these cows. You will see many good heifers out of them on sale day. They are tremendous breeding females, and their progeny will definitely be heard from in the future.

**Ernmore Penny 24F x** is a terrific prospect as a show heifer and has a bright future as a brood cow. She sells as Lot 13.

**LOT 13**

**Female**

## **ERNMORE PENNY 24F x-616327-D**

Roan, Harold Jibb

Fisher's Diamond x  
Roan, Rufus J. Fisher  
Jibbskot Patricia's Penny x  
Red, Harold Jibb

**ERNMORE PENNY 24F x** — Little can be said about this outstanding young prospect. She has tremendous growth, along with smooth fleshing, and has all the credentials to be a top show heifer at the fall and winter shows. Sired by Canadian Image and out of a top-producing brood cow, the future of this female is unlimited. Shown only twice in the states by Roger Steiger, Delavan, Illinois, she stood first and third in rough competition, and was a member of the second prize pair of females in the Polled show at the Illinois State Fair. So that this great prospect can be shown this fall, she has been entered in the National Shorthorn Show in November at Louisville, Kentucky, for her new owner.

**Ernmore Inez 23F x** — no better heifer could be found in North America. She is from the good Jibbskot cow family and sells as Lot 14.

**LOT 14**

**Female**

**ERNMORE INEZ 23F x-616326-D**

**JIBBSKOT DAINTY x** — A top producer that has a Covino III Maine-Anjou steer calf at foot. Rebred to Canadian Image.

**THE LANNIN COWS**

These Lannin cows have been real producers for us. They have more substance than most Dual Purpose Shorthorns, and any one of them will be a credit to your herd. Only in a dispersal sale can you pick females of this calibre.

**LOT 37****Female****MELODY JANE 4th -580004-**

Tattoo KBV 2Z rt ear

# THE BRANDON RESEARCH COWS

These cows have as much R.O.P. in their pedigrees as any cattle anywhere. They were selected for size for over twenty years with only the top one-third being placed back into the herd. They were sold only because the research project ended. They sold all of the heifer calves and we purchased most of the top indexing females. These are all exceptionally outstanding breeding females. They have made a mark in Shorthorn circles in recent years for us, and also for Dr. Martin Nold, Weston Shorthorns, Gettysburg, South Dakota. This is your only chance to get this truly great performance breeding. You can purchase these cows with great confidence.

**Ernmores Rosewood Image** — a top roan show heifer that has the invaluable Brandon Research breeding behind her. She sells as Lot 47.

**LOT 47**

**ERNMORE ROSEWOOD IMAGE** — A big, smooth, upstanding, modern female that has really taken off after being shown this past summer by Roger Steiger, Delavan, Illinois. She was Reserve Grand Champion Female at the Heart of Illinois Fair under judge Joe Woods, Frankfort, Indiana. She also won her class at several top county fairs in Illinois. She has all the tools to be a great show heifer and a top-producing brood cow. By the great siring bull, Canadian Image, and out of one of the better producing Brandon Research cows, her genetic makeup is unlimited. She, like her half-sisters, has been entered in the National Shorthorn Show at Louisville, Kentucky for her new owner.

Melbros Pilot 10E x is the herd sire for Mr. and Mrs. Elgin E. Stewart who are selling a guest consignment of their very best. His get and valuable service sell on October 18. Remember, he was the top-selling bull in 1973 at the Canadian Agribition Show and Sale for \$3,000.

## THE ELGIN STEWART COWS

We are pleased to have Elgin E. Stewart put this group of cows into our sale which were selected from his herd of sixty cows. Mr. Stewart has sold his farm, and the cows must also be sold. They are all top cows and heifers, most of which are polled with good polled calves. Mr. Stewart has always purchased the best bulls he could find, regardless of price; and most of the calves are by the \$3,000 top-selling bull at the 1973 Canadian Agribition, Melbros Pilot 10E x. He is an extremely tall, long bull that is siring modern calves, as you will see. We have agreed to offer breeding privileges to any of our own herd bulls.

**Tyrone Katia's Image** — the All-American junior yearling female and the Grand Champion Female at the 1974 Nebraska State Fair. She sold at the recent National Western Sale in Denver for the all time high for a bred heifer at \$3,000. This is typical of what Canadian Image can do for you.

## COMMERCIAL COWS

- LOT 124**—Shorthorn cow with April Maine-Anjou heifer calf by Covino III. Rebred to Covino III.
- LOT 125**—Shorthorn cow with April Maine-Anjou heifer calf by Covino III. Rebred to Covino III.
- LOT 126**—Shorthorn cow with April Maine-Anjou bull calf by Covino III. Rebred to Covino III.
- LOT 127**—Shorthorn cow with April Maine-Anjou heifer calf by Covino III. Rebred to Covino III.
- LOT 128**—Shorthorn cow with April Maine-Anjou heifer calf by Covino III. Rebred to Covino III.
- LOT 129**—Shorthorn cow with August Maine-Anjou heifer calf by Covino III. Rebred to Covino III.
- LOT 130**—Shorthorn cow with July Maine-Anjou heifer calf by Covino III. Rebred to Covino III.
- LOT 131**—Shorthorn cow with June Maine-Anjou bull calf by Covino III. Rebred to Covino III.
- LOT 132**—Shorthorn cow with April Blonde d'Aquitaine heifer calf by Fantome. Rebred to Fantome.

You will note that some of the purebred cows have exotic calves. This was another method of testing the reproductive performance of these cows. The calves were on the ground before the decision to disperse was made. The older calves will be split off from their dams and will be sold individually. The cows are now guaranteed in calf to Canadian Image or Jibbskot Roan Hope 2nd x.
